The information accompanying the request must be complete to the point that it will be possible to reach a valid decision without further investigation.

Copies of the appeal brief must be supplied in advance, either mailed, faxed, emailed, or hand delivered, to the Commissioner, the members of the South Carolina High School Executive Committee and to all other parties involved. All parties are to be offered an opportunity to appear before the South Carolina High School Executive Committee. If time is short and the parties to be notified have not received copies of the appeal brief, sufficient copies of the brief must be available to all parties by the scheduled beginning time for the hearing.
- C. The school presenting an appeal will be limited to a ten-minute presentation. In the event that another school is present to present a refutation, the period will be extended to twenty minutes, provided that school has requested time on the agenda. Two or more high schools under the same superintendent and governing board may combine for any activity sponsored by the League, provided the combination is approved by a majority vote of all schools in the region in which they desire to compete and by the Executive Committee of the appropriate classification as well as the Commissioner of the League. Such a combination of schools may not exceed the student population of the largest school in the classification unless otherwise approved by the affected classification.

1. To obtain permission to combine, the principals of all schools concerned must apply in writing to the region, to the president of the conference in which they wish to compete, and to the Commissioner at least 30 days in advance of the planned combination, clearly stating the reason for the combination.

- D. When a committee arranging for elimination contests names the teams to take part, the teams so named are released from any conflicting games on their schedules

A student who is repeating a course for which he/she has previously received credit cannot count this course as one required for eligibility. This is considered as monitoring a course
- B. To participate in interscholastic athletic activities, students in grades 9-12 must achieve an overall passing average in addition to the following:
1. To be eligible in the first semester a student must pass a minimum of five Carnegie units applicable toward a high school diploma during the previous year. At least two units must have been passed during the second semester or summer school.

In most cases on a traditional or AB block schedule, the following example would apply:

- If eligible first semester, must pass four subjects
- If not eligible first semester, must pass five subjects

In a 4 X 4 block schedule where units or $\frac{1}{2}$ units are granted at the end of the first semester the following will apply:

- If eligible first semester, must earn 2 units
- If not eligible first semester, must earn 2 $\frac{1}{2}$ units

3. Students must satisfy eligibility requirements in the semester preceding participation.
 - a. Credits earned in a summer school approved by the State Department of Education may apply for first semester eligibility. A maximum of two units per year may be used

 5. A course that is dropped after the 20th day of a semester with a failing average will be considered as a failed course when determining academic eligibility for the following semester.
 6. Credit courses used for eligibility purposes must be courses that are applicable as credit toward a state high school diploma. A student may also use college credit courses provided the student has met or is meeting all requirements for graduation.
 7. Academic deficiencies may not be made up through enrollment in adult education programs.
 8. A maximum of two credit recovery units may be used toward eligibility to include the two units presently allowed in summer school. A credit recovery course must be accepted by the State Department of Education for graduation. To be eligible for recovery credits, the students must have received a minimum grade of 50. For eligibility purposes, a passing grade of "p" will equal a numerical grade of 60. Credit recovery/incompletes must be completed by the second Monday in August for first semester eligibility and by the second Monday in March for second semester eligibility.
- C. A student must not have received a high school diploma or its equivalent.
- D. Academic requirements for students enrolled in the seventh and eighth grades, including first semester 9th graders are:

 3. A seventh or eighth grade repeater shall not be eligible during a school year if academic requirements for promotion were met during the previous year.
 4. A student who previously failed the seventh or eighth grade is eligible during the second semester if he/she has satisfactorily passed first semester work.

- F. Schools will follow the procedures outlined in the School Administrators Guide, published by the State Department of Education, in accepting or rejecting credits received by a student while the student is enrolled in private schools, including home schools and/or out of state schools

Section 5 Special Conditions Eligibility

- A. Ordinary cases of ineligibility shall not be considered as coming under the "special conditions" eligibility category. Ordinary cases of ineligibility are defined as those scenarios set forth and provided for in the Constitution or Bylaws and Rules.
- B. These provisions for special conditions are for cases of ineligibility which involve the existence of special conditions, which may include medical conditions or financial conditions, or in the proper case of a student with a disability.
- C. Favorable determination under these provisions requires a finding that the facts surrounding the alleged hardship are clear, undisputed, and supported by appropriate documentation. In any application for a hardship under this Rule, the burden is upon the party seeking the hardship to show entitlement to a hardship by clear and convincing evidence. The fact that a student has not participated for four seasons will not justify allowing such student to participate in interscholastic sports beyond the eighth semester after his/her entrance into the ninth grade. A transfer to remedy academic difficulties or failures is not, by itself, considered grounds for a waiver under this provision. However, external circumstances beyond the student's control which can be documented to have caused the academic failure may be considered if the student demonstrates that he/she, and the student's family, exercised reasonable efforts during the year to address the academic deficiencies, and the sending school was unable or unwilling to remedy such deficiencies.

Extraordinary Circumstances are:

- A. Circumstances which are unforeseeable, unavoidable and uncorrectable and which are completely beyond the control of the school, the coach, the student, the parents, the immediate household of the affected party, such that none of them could reasonably have been expected to comply with the rule; and
- B. Are not the result of actions, in whole or part, by the school, the coach, the student, the parents, the immediate household of the affected party; and
- C. Cause the imposition of severe and non-athletic burden upon the student and his/her family; and
- D. Are circumstances that are totally different from those that exist for the majority or even a small minority of students (e.g., usual maturation problems or family situations that do not cause severe and abnormal emotional problems, and academic or athletic deficiencies in a school's curriculum or extracurricular activities do not constitute a hardship).

Medical Hardship is:

- A. A long-confining illness, injury or death that results in:
 - 1. a change of the residence or the school attendance of the student's immediate household; or
 - 2. significant interruption of the student's normal progression towards graduation.

- B. Conditions which produce severe and unusual emotional conditions which, in turn create a debilitating personal non-athletic hardship which would prevent a reasonable student under similar circumstances from satisfactorily completing a school year or would have prevented a reasonable student under similar circumstances from remaining at the sending school.
- C. Injuries sustained in playing a sport do not constitute grounds for a medical hardship grant of an additional year. Illness, injury, severe or unusual emotional conditions or other circumstances of a similar nature must be verified in writing by a licensed medical doctor (M.D.).

Financial Hardship is:

To be eligible under a financial hardship, the following criteria must be met:

- A. There must be a change in the financial condition of the student's immediate household that did not exist at the start of the previous school year; and
- B. The changes in financial condition must be non-temporary, substantial and significantly beyond the control of the student and the student's immediate household.
- C. Documentation verifying the financial circumstances must be submitted with the petition (e.g. current & previous check stubs, documentation from previous & current employer, documentation from the South Carolina Department of Employment and Work Force).
- D. **Procedures to make hardship requests**
 1. Each request must be made in writing by the superintendent or principal of the member school and contain all the facts pertinent to the case and demonstrating why the request is not an ordinary case of ineligibility. An application form supplied by the League Office will be used. The Request should indicate which of the special conditions criteria are believed to be applicable.
 2. The request must include sufficient data to make it possible to reach a decision without further investigation. All documents necessary to reach a conclusion on the request must be attached to the request. In the event it is determined that a document necessary to reach a conclusion was inadvertently omitted, the Commissioner may contact the superintendent or principal to inform them that a conclusion cannot be made based upon the information submitted or that the conclusion will be adverse to the school without the supporting documentation. The superintendent or principal may then supplement the request provided the supplementation occurs within five (5) working days or two (2) days prior to the Executive Committee meeting (whichever comes first).
 3. Before submitting a Hardship Request, the student must be enrolled in and attending the submitting school. The submitting school should consider and determine whether the transfer to, or decision to remain at, the submitting school was the result of any of the aforementioned occurrences or factors beyond the control of the student
- E. Rulings made by the Commissioner may be appealed to the Executive Committee.

- F. The Executive Committee's cause for granting "special conditions" eligibility shall be recorded in the minutes of the meeting.
- G. Ignorance of the rule on the part of the school shall not be considered sufficient cause for setting aside the effects of the rule and shall not constitute a case of ordinary ineligibility.
- H. The decision of the Commissioner (whether appealed to the Executive Committee or not) or the decision of the Executive Committee or Appellate Panel to set aside the effects of a rule shall not be considered as setting a precedent for other cases of somewhat similar nature.

Section 6 School Enrollment and Attendance

- A. A student must be enrolled in the school at which he/she practices or participates; except, home schooled students and/or charter school students, and/or virtual school students, and/or Governor's schooled students subject to certain conditions, are eligible at the public school in the attendance zone of their residence. Governor's schooled students, subject to certain conditions, are eligible at the public school in the attendance zone of which the Governor's schools physical plants are located.
 - 1. If a school district assigns district resident students to a school in the same district and that school has no athletic program, the district can request one of the following:
 if the students are to receive their diplomas from the school that does not offer an athletic program, they may be eligible at the district's public school in whose attendance area they live.

or

 if the students are not to receive their diplomas from the school that does not offer an athletic program, they may be eligible at the district's public school from which they will receive their diplomas
 - 2. If the district assigns non-district resident students to a school in the same district and that school has no athletic program, the district can request one of the following:
 if the students are to receive their diplomas from the school that does not offer an athletics program, they may be eligible at the district's public school in whose attendance area the school's physical plant is located.

or

 if the students are not to receive their diploma from the school that does not offer an athletic program, they may be eligible at the district's public school from which they will receive their diplomas.
 - 3. The conditions above are for athletic purposes only. Enrollment is defined as actual matriculation (complete registration) and physical attendance in classes for one day or participation in a contest prior to either semester. Enrollment must be continuous while participating.

- B. If an interscholastic contest occurs before the formal opening of school, a student is eligible to represent the school if he attended the school during the previous semester, or is living in the attendance area of the school because of a change of residence on the part of the parent or legal guardian and has formally registered in the new school.
 - 1. The student must be eligible in all respects.
 - 2. In case of a new student, he/she must be properly registered in his/her new school and he/she must have been eligible by South Carolina High School League standards to represent the school from which he/she transfers.
- C. If a student fails to enroll and attend classes for one day by the eighth calendar day of the first semester, he/she will not be allowed to take part in any contest of the League until he/she has been a bona fide regular attendant for thirty calendar days. This enrollment must be in the school in which he/she is in attendance or in the school from which he/she was forced to transfer.
- D. A pupil enrolled in the eighth grade for the first time and taking subjects offered in the ninth grade for credit toward a high school diploma will not be considered as having enrolled in the ninth grade.

Section 7 Participation and Practice Limitations

- A. A student must not participate under an assumed name.
- B. To be eligible for interscholastic athletic competition, including practice, a student must be enrolled in the seventh grade or above. Students enrolled in sixth grade and above may practice during the month of May in fall sports that are permitted to practice during that time period. (April & May for competitive cheer)
- C. A student will become ineligible for interscholastic athletic competition, including practices, at the end of the fourth school year from the time that he/she first enrolled in the ninth grade. Beginning with the ninth grade, a student has eight consecutive semesters of eligibility.
- D. With the exception of football, wrestling, lacrosse and soccer, eligible seventh and eighth grade students may participate on varsity teams.
- E. Participation on junior varsity and "B" teams will be left to the discretion of the local school authorities. It is recommended that teams below the varsity level be restricted to students in the tenth grade and below
- F. A student whose name appears on a member school's football certificate of eligibility shall not practice with nor participate on another football team for which he has been certified. This restriction includes tryouts. Violation of this regulation will render the student ineligible in football for the remainder of the present school year. Any student in the uniform of and permitted in the bench area of a competing team is participating within the meaning of this section.
- G. Students will not be permitted to participate on teams with members of the opposite sex, except that a female may participate on a male team if no female team in that sport is offered.

- H. Competitive cheer is deemed a sport in which both genders may be on the same team, as limited by rules and regulations.
- I. A student may participate in only one football game in any one day. Students participating in lacrosse, soccer and basketball will be restricted to one game per day except they may play in two games in one day in an invitational tournament. There must be a minimum of one hour's rest between games.
- J. No school shall permit a team to take part in a contest after its regular season or its elimination from the state play-offs. An individual may not transfer to another school team still involved in the regular season or play-offs if his/her team has been eliminated from the play-offs or completed his/her regular season. The Executive Committee may extend the regular season for non-contact activities if in its opinion such extensions are in the best interest of the students involved.
- K. No school shall permit out of season practice in any activity that is not open to all students and mandatory for none.

Section 8 Residency and Attendance Area

- A. A student must reside in the State of South Carolina, unless approved otherwise by the local school district, and is expected to attend the high school which serves the attendance area in which his/her parent or parents, or legally appointed guardian reside. (Refer to Section 10 on Guardianship in this Article)
- B. A student shall always be eligible under the residency rule at the last school where eligibility was established.
- C. An attendance area must be considered as an area determined by the governing body of the school or the district within which students who are resident must attend the high school designated for that area.

Section 9 Original Eligibility

A student establishes his/her eligibility when he/she is academically promoted to and first attends school in the seventh grade. He/she is eligible at this school and the school that it feeds, **unless alternately assigned by the school district;** until he/she attends another school. Should the feeder school supply students to more than one high school, each student's eligibility on a high school team will be determined by the attendance area of the high school in which he/she lives, **unless alternately assigned by the school district.** The residence must be in the school district of the middle school that the student is attending. If the residence is not in the school district of the middle school, which feeds multiple high schools, that the student is attending, that student shall be eligible at district's public high school in whose attendance area the middle school's physical plant is located, **unless alternately assigned by the school district. All alternate assignments are in effect the affected school year.**

Section 10 Transfers

A transfer student will be ineligible for a period of one calendar year at the new school unless he/she transfers under one of the circumstances set forth in subsections (A) through (N) below and only if he/she meets the following two criteria irrespective of whether he/she moves under one of the circumstances set forth in subsections (A) through (N). An ineligible transfer student meeting the two criteria, but not any of the circumstances of subsection (A) through (N) may compete with LIMITED ELIGIBILITY only, and must have a letter of support from the principal of the school from which the athlete is eligible. The student cannot have participated in the sport in which he/she wishes to be certified during the current school year. This type transfer of eligibility is only allowed once every (365 days) calendar year and only applicable to inter-district transfer

1. The student must be eligible to represent the school from which he/she transferred.
2. The student would be ineligible in the sport for one calendar year if the student has participated on an outside team in which a coach or volunteer coach from the school to which the student is transferring coached or had input into the selection of the outside team. This second criteria does not apply if the student is transferring from a non-member school and had attended the non-member school the previous two semesters.

In addition to the two requirements set forth above, a student must also transfer under one of the following circumstances to be immediately eligible

- A. The student and his/her parents must have a bona fide change of residence into the attendance area of the new school. The transfer of school following a "bona fide change of residence" must take place prior to the beginning of the following school year. If a student transfers at any other time, he/she will be ineligible for one calendar year. If because of changes in attendance area lines by the governing board a student's residence is placed in another attendance area, this will be considered the same as a bona fide change of address.
- B. If a student established residence with a person other than a parent prior to enrollment in the seventh grade and this residence is not broken, it will be considered the same as residing with a parent. The student, after entering the seventh grade, will have a one-time move to a biological parent(s) and be given immediate eligibility. The transfer eligibility will be recognized when the transferred student participates in an athletic competition representing the school. The student cannot have participated in the sport in which he/she wishes to be certified during the current school year..
- C. Emancipated students that transfer will be ineligible for one calendar year
- D. A student transfers to a school in the same district where he/she is currently eligible; to a school in the district where he/she is currently ineligible (as it relates to residency), or to a school in the district where the student and his/her family lives. The transfer must occur at the beginning of the student's 9th grade year.

- E. A student transfers from a nonmember school to a member school.
 - 1. The student's parents must live in the attendance area of the member school.
 - 2. The student cannot have participated in the sport in which he/she wishes to be certified during the current school year at the school from which he/she is transferring. If a student transfers from out-of-state to in-state with a bona fide change of residence, this rule is not in effect.
 - 3. The student must have been enrolled in the nonmember school for at least 45 school days prior to transferring.

- F. A student who enters a middle or high school IB Program or High School Magnet School program offered by the school district in which the student lives and is attending school will have a one-time move to that program and a one-time move back to his/her home school without loss of eligibility. Students entering the magnet program must do so as 9th graders only. The move to or from these programs must be made the first day of school. A move at any other time will require a waiting period until the first day of the next academic year for the student to be eligible. The student cannot have participated in the sport in which he/she wishes to be certified during the current school year.

- G. A student, whose parents separate by court action or divorce and establish residency in different areas, has the option of establishing eligibility with either parent.
 - 1. The separation must be by court action, signed by a judge or stamped by clerk of court.
 - 2. A transfer of schools must take place prior to the beginning of the following school year.
 - 3. If an in-state student later transfers to the other parent, he/she will have a one year's waiting period unless the change of residence is necessary because of the death of the other parent.
 - 4. If the separation by court action and/or divorce occurred prior to the student entering the 9th grade and has been for a period longer than one calendar year, the student may move to the other parent one time and be given immediate eligibility. The student cannot have participated in the sport in which he/she wishes to be certified during the current school year.

- H. A student is placed by the courts in an orphanage or foster home
 - 1. Written notice of the assignment must be filed in the League Office.
 - 2. Transfer must be to the school in whose attendance area the orphanage or foster home is located.

- I. A student has parents who are citizens of the United States, but reside outside the contiguous United States. Eligibility will be at the school in whose attendance area his/her temporary guardian resides. He/she may not transfer from this school unless there is a bona fide change of residence on the part of the temporary guardian

- J. If both parents are deceased, the student will become eligible on the day the legal guardianship papers are recorded in the office of the clerk of court.
- K. If a student diagnosed with a disability is assigned to another school (within the district) to take a special program associated with the disability condition that is not offered in his/her home school, he/she will have immediate eligibility at the new school.
- L. When the option of attending a diploma granting vocational school exists and the transfer is made at the end of the eighth grade, the student is eligible at the diploma granting vocational school immediately. Students entering a vocational school at any other time will be required to wait a calendar year before being eligible.
- M. A student transfers to another school in the same district, to include member charter and private schools located in the district; other than ninth grade, provided the affected superintendents and schools' principals approve the transfer. This type transfer is allowed once every (365 days) calendar year and only applicable to member schools located within the district. The student cannot have participated in the sport in which he/she wishes to be certified during the current school year.
- N. A student transfers to another school under the McKinney-Vento Act.

Section 11 Guardianship

A legally appointed guardian will have the same status as a parent under the following circumstances

- A. Both parents are deceased.
- B. Both parents reside outside the contiguous United States and the parents are United States citizens.
- C. A student becomes a ward of the court and the Department of Social Services assumes legal guardianship
 - 1. In this case, the parents or former guardians retain no legal rights to or control over the student.
 - 2. Foster parents will be recognized immediately.
- D. A student becomes the ward of an orphanage

Section 12 Foreign Exchange Students

- A. Foreign exchange students may be granted eligibility for a maximum of one calendar year from the date of enrollment provided they:
 - 1. Reside in the attendance area of the school in which they are enrolled. Any subsequent transfers must be according to South Carolina High School League transfer rules in order to maintain eligibility.
 - 2. Are part of an approved foreign exchange student program that is listed by CSJET upon enrolling in a member school.
 - 3. Have been assigned to schools by a method, which ensures that no student, school or other interested party has influenced the assignment for athletic purposes.
 - 4. Have not graduated or were not eligible for graduation from high school.

5. Meet all other eligibility standards while a student at a member school.
 6. Are submitted on a SCHSL FOREIGN EXCHANGE STUDENT ELIGIBILITY REQUEST FORM that has been approved by a member of the League Staff.
- B. A South Carolina student returning to his/her original school from a foreign exchange program may resume athletic competition provided he/she meets all requirements relative to age and semesters of eligibility.
1. If the student did not receive credits for graduation while participating in the exchange program, he/she will use the semester immediately preceding enrollment in the program to meet the academic standard.
 2. The year spent in the exchange program will count as one of the four allowable years of eligibility.

Section 13 Effects of School Disciplinary Actions

- A. A student dismissed from his/her school or facing disciplinary action can return to his/her original school and use credits earned in another school sponsored program in his/her school district in order to meet the academic requirements for athletic eligibility.
