RE: Newly Formed Partnership – Stanley Steemer

The South Carolina High School League is pleased to welcome a new corporate partner, Stanley Steemer, which is providing cleaning and disinfecting service to the SCHSL offices. Returning to our offices after a lengthy remote work experience due to COVID-19 emphasized the need for a sterile, safe work environment for SCHSL staff and visitors. As we all explore what is necessary to meet health standards for clean and safe working and learning conditions, the status of Stanley Steemer as an industry leader for over 70 years gives me peace of mind and confidence that we are aligned with a trustworthy partner.

They have introduced a new cleaning product that is an EPA Registered Antimicrobial Disinfectant that meets the EPA's criteria for use against SARS-CoV-2 when used on Hard/Non-Porous Surfaces like Tile, Wood, Laminates, Vinyl, Linoleum and Stone. This product has also been demonstrated to be a highly effective cleaner of Soft/Porous Surfaces-including Carpets, Rugs & Upholstery.

We appreciate Stanley Steemer's support of the SCHSL and we encourage you to consider learning more about their services. Representatives may be contacting you soon to introduce themselves and provide information about the cleaning and disinfecting services they can offer to your schools. In the meantime, if you are interested in learning more, please contact Suzanne Pucci with Stanley Steemer (803.240.6402 [suzanne.pucci@steemer.com](mailto:suzanne.pucci@steemer.com)) Thank you for your willingness to work with and support Stanley Steemer as well as all of the SCHSL's corporate partners. "Back To School" will have an entirely new meaning for the entire nation this upcoming school year. I am aware having the cleanest, safest facility possible is at the top of your priority list.
