FOR YOUR INFORMATION

National Diabetes Awareness Month

November is National Diabetes Awareness Month and is a great time to spread awareness about the disease that affects millions of lives including student-athletes. According to the Centers for Disease Control (CDC) and Prevention, 37 million people have diabetes. That's 1 in every 10 people and 1 in 5 don't know they have diabetes. Additionally, 96 million adults (more than 1 in 3) have prediabetes. More than 8-in-10 adults don't know they have prediabetes. If you have prediabetes, losing weight by eating healthy and being more active can cut your risk of getting type 2 diabetes in half.
